

New Horizontal or Vertical High-X 100 SHX Pressure Relief Vents

WALL OR CEILING MOUNTED

The New HIGH-X100 SHX offers the ability to be wall mounted or ceiling mounted. This gives the designer greater flexibility when considering pressure venting routes.

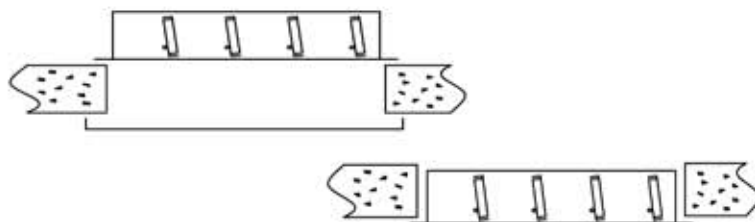

The horizontal mounted unit provides a FVA of 80% and a Dynamic Co-efficient of 1.25.

It is the only Third Party (BRE) Verified Vent on the market. It has all the features and benefits of the standard SHX:-

- ▶ 100% Efficiency at 95.5 Pascals
- ▶ Gas Discharge Performance Tested
- ▶ 4 Hour Fire Rated
- ▶ Dynamic Co-efficient Factor of 1.15
- ▶ Life Time Guarantee
- ▶ High Quality to ISO9001
- ▶ Available within 24 hours
- ▶ The World's Best Performing Vent

You won't find a better or more cost effective vent anywhere else on the market.
